25X1A

MEMORANDUM FOR:

SUBJECT:

**National Science Foundation Reports
on Government Sponsored and
Supported Research**

1. This office receives regularly the following quarterly National Science Foundation Inventory of Government sponsored and Government supported research:

- a. Projects in Psychology and Related Areas.
- b. Projects in Social Science and Interdisciplinary Areas.

2. Attached are three quarterly reports on each area received in 1953. I believe that many Agency research people would find it useful if the library retained these inventories. I would be glad to turn over each new quarterly report that I receive as soon as I have had an opportunity to examine it.
